There are millions of websites on the Internet, but most of them fail to make a lasting impression on readers and web surfers. Creating a site that is both appealing and financially remunerative can seem challenging, but this invaluable tool makes the process both simple and fun. As with every book in the popular series of computer books, this one walks readers through every step of the process. From design planning to search engine promotion, each step of the process is thoroughly explained in clear, jargon-free English. Full-color graphics, including numerous screenshots, add further support and clarification. Written by the designer of the website for the *In Easy Steps* series, this book contains all the information needed to create a website that looks good and makes money. This updated edition adds more value by covering HTML and CSS.
