Kitchen Garden Companion: Dig, Plant, Water, Grow, Harvest, Chop, Cook Stephanie Alexander

If you have ever dreamed of picking fresh salad leaves for the evening meal, gathering vine-ripened tomatoes or pulling up your own sweet carrots, this is the book for you. In this Northern Hemisphere edition of Stephanie Alexander's Kitchen Garden Companion, you can follow in the footsteps of a much loved cook and food writer as she reveals the secrets of rewarding kitchen gardening. Be encouraged by detailed gardening notes that explain how adults and children alike can plant, grow and harvest over 70 different vegetables, herbs and fruit, and try some of the 250 recipes that will transform your fresh produce into delicious meals. Families can learn together with this book, which is, in part, a result of Alexander's work in establishing kitchen gardens in primary schools. Her idea is that children who know how to grow and cook their own food will have an interest in healthy, fresh food for their entire lives. Whether you have a few pots on a balcony or a large plot in a suburban back garden you will find everything you need to get started in this inspiring and eminently useful garden-to-table guide.

Steven Cordell:

Would you one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Attempt to pick one book that you just dont know the inside because don't assess book by its deal with may doesn't work this is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside look likes. Maybe you answer could be Kitchen Garden Companion: Dig, Plant, Water, Grow, Harvest, Chop, Cook why because the excellent cover that make you consider about the content will not disappoint anyone. The inside or content is definitely fantastic as the outside or maybe cover. Your reading 6th sense will directly guide you to pick up this book.

Gail Cote:

As a student exactly feel bored for you to reading. If their teacher inquired them to go to the library in order to make summary for some book, they are complained. Just minor students that has reading's spirit or real their hobby. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that studying is not important, boring along with can't see colorful images on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Kitchen Garden Companion: Dig, Plant, Water, Grow, Harvest, Chop, Cook can make you truly feel more interested to read.
