MELT: A Psychological Thriller Shane M Brown

On March 26th, seven people are abducted from right across the United States of America.

A charity collector. A schoolboy. A CEO. A UPS delivery driver. A retired schoolteacher. A computer gamer. A hunter. They are just everyday people with nothing in common.

No ransom is demanded. No one knows why they are taken. And no one could possibly imagine the horrors they've been chosen to face. Given no instructions, totally isolated from the outside world, all they find is ice.

From the moment they awaken, the ice begins to melt and their terrifying struggle for survival begins. The ice will push them beyond their limits of endurance. It will reveal their personal secrets. It will torture them in ways they hadn't imagined possible, but it is also their only hope of escape.

As cryptic patterns emerge, the ice reveals its rules. Rules they must obey or die. Thrust into the most horrifying ordeal of their lives, seven strangers must band together to survive. But as the ice melts, what they find inside begins to tear their group apart.

They will learn terrible things about each other. They will learn their own personal limits. Scariest of all, they will learn what humans are capable of when pushed to the edge of sanity.

About the Author:

Father of three, SHANE M BROWN was born in 1974 and writes from Brisbane, Australia. He attended James Cook University from 1991 to 1998, graduating with a Bachelor of Biological Science with majors in Zoology and Archaeology, a First Class Honors Degree in Underwater Archaeology and a Masters Degree in Environmental Management.
