A Watered Garden: Christian Worship and Earth's Ecology Benjamin M. Stewart

This book begins with the classic, ecumenically held patterns of Christian worship and explores them for their deep connections to ecological wisdom, for their sacramental approaches to creation, and for a renewed relationship to the earth now itself in need of God's healing. The Worship Matters Studies Series examines key worship issues through studies by pastors, musicians, and laypeople from throughout the Evangelical Lutheran Church in America. Features include the following: 1) Informal and insightful writing for all readers; 2) Study questions at the end of every chapter; 3) Examination of vital issues in weekly worship; and 4) Increased ability of leaders and congregants to understand and experience worship more richly.
