Comprehensive Clinical Nephrology: Text with CD-ROM, 2e Richard J. Johnson MD

The second edition of Comprehensive Clinical Nephrology will build on the strengths of the first edition to bring the reader the most up-to-date information on every clinical condition encountered in nephrology in one concise but comprehensive, clinically focused volume. Every chapter has been fully revised and updated, with new chapters on renal disease in the elderly, management of renal diseases in septic shock or the ICU setting, and urologic conditions of relevance to the nephrologist. There is much greater coverage of the surgical management of renal stone disease, the management of renal disease in the ICU, acute pancreatitis and Leptospirosis as causes of acute renal failure, renal, bladder and prostate malignancy, and much more. Clinically focused and highly illustrated in full color throughout Comprehensive Clinical Nephrology is an invaluable bedside resource for the trainee or practicing clinician in nephrology, internal medicine or critical care.

This second edition also comes with a CD-ROM which contains all the figures, images, and tables from the book

- Gives the best clinical advice available from the world's leading experts
- Give the reader both the principles and practice of clinical medicine for every disorder
- Assists in the decision as to which tests to order
- Reader is able to locate material more easily due to standard layout of each chapter
- Ensures the best possible coverage of the specialty from the experts worldwide
- Relevant but not exhaustive references of key papers makes it easy to locate essential references
- Makes the complex acid-base principles easy to understand and helps put them in the clinical context of the disease process

- New chapter on Renal Disease in the Elderly
- More on surgical management of renal stone disease and its treatment, primary oxalosis, and uremic toxicity
- New chapter on management of Renal Disease in the ICU setting (in context of septic shock etc.)
- More on acute pancreatitis and leptospirosis as causes of acute renal failure
- New chapter on Critical Urological Conditions of relevance to Nephrologists
- Short new section on hantavirus and renal disease
- More on renal, bladder and prostate malignancy
- Expanded coverage of poisoning and drug toxicity, with all common poisons/toxins discussed
- Many new clinical photographs, pathology and radiology images and full-color line illustrations
