This book will help plan a campaign in order to join the ranks of the consistently winning players.

There is a great deal more to being a successful poker player than simply knowing how to play a good game.

Playing good poker is largely a technical skill which can be learned. Being a consistently successful player is much harder and necessitates acquiring expertise in many other areas.

Byron Jacobs has been a successful online poker player for seven years. In this book he identifies precisely how this can be achieved and shows how much of the battle actually needs to be conducted away from the table. If you already play a fair game of poker but want to become one of the very few players who consistently “play well”, then you need this book.

The concepts discussed in this book are brought into clear focus on the accompanying 180 minute video CD where the author can be seen explaining his decision-making process.
