Arrowheads: A Beginner's Guide Tim Anderson

How were Native American arrowheads made? Where can they be found? How were they used? This book answers all these questions and much more. This new 5th Edition has valuable info for the beginning collector, artifact replicator and arrowhead hunter, including tips on how and where to find your own artifacts, illustrated segments on the anatomy and life cycles of arrowheads, and a comprehensive glossary. Also included is a beginner's introduction to how flint arrowheads were made (with both ancient and modern types of flint knapping tools, heat-treating, water-treating, helpful hints, notching, fluting, and much more). It contains info on making other types of non-arrowhead artifacts as well. This new edition also has a section on arrowheads made from other types of materials (including bone, antler, metal, wood and more). Also featured are some common types of replica and fake flint arrowheads which all beginning arrowhead collectors should beware of, before purchasing. There is even a short price guide for the prospective arrowhead buyer. In addition, there is info on how arrowheads were used in arrows, atlatl darts, knives, spears, blowgun darts, and even drills. Sections are also included on displaying, cataloging your collection in creative ways, and even on how to illustrate your own arrowheads. This primer makes an excellent introduction for any beginning arrowhead enthusiast! Make sure you are ordering this new and expanded 5th Edition with the teal green front cover! All previous editions have a black front cover. This new 5th Edition WITH THE TEAL GREEN FRONT COVER contains over 30 new pages of added information.
