## **The Slowest Book Ever** April Pulley Sayre

April Pulley Sayre's wry, quirky storytelling tone shines from the warning on the first page ("This is a S-L-O-W book. Do not read it while surfing, water skiing, or running to escape giant weasels.") right through to the glossary at the end. In between, readers will explore an astounding variety of information about all things slow—in nature, geology, art, outer space, etc. Throughout, *The SLOWEST Book EVER* playfully encourages readers to slow down and savor everything. As Sayre shows: "If you think slowly enough, the entire world is amazing." This innovative nonfiction work is a treasure trove of information that begs for multiple readings.
