## **The Next Big Bang: The Codex 5 Model** Fritz Hoffecker

"The Next Big Bang: The Codex 5 Model" presents a comprehensive, coherent model of how Dark Matter and Dark Energy were formed. The Model's predictions about the distribution of Dark Matter and Energy align with observations made by the Wilkinson Microwave Anisotropy Probe (WMAP) and the Planck space telescope. The Model also aligns the development of Dark Matter and Energy with the Big Bang, and predicts how this iteration of the universe will eventually end and then be reborn in yet another Big Bang.
