## **The SS: Warning From History** Guido Knopp

The best known but least understood organ of the Nazi state, the SS grew from a minor politician's small, unpaid bodyguard into a force which dominated the racial, cultural and professional spheres of the most powerful empire Europe has ever seen. Often referred to as 'the state within a state', the SS was Heinrich Himmler's personal fiefdom and its influence pervaded all walks of German life, both private and public. Its tentacles extended into the army and police, the business world and of course the death camps.
