The world is a curious place and the things that humans know are scarcer than the unknown and unexplained. The existence of ghosts is probably one of the things that science cannot either prove or disprove; in all its aspects, at least.

Though their presence on Earth is not widely accepted, the air of mystery that hangs about ghost stories keep them alive. It is the truth in them that keeps people wanting to know more about them; and with this curiosity, some hauntings have even been proven true.

Each culture and country have their own versions of ghosts and hauntings. What's fascinating is that, across borders and traditions, these hauntings share the same spine-tingling and hair-raising effect on those that get to hear or read about them.

This book includes true creepy ghost hauntings from around the world that will make you conclude that 'they' really exist. From haunted islands, confirmed poltergeist cases, to restaurants haunted by an estranged lover, mansions and palaces that serve as a home to a number of ghosts, and even a ghost train that never lets its passengers off, this book will provide all your ghostly curiosity and mystery seeking needs.
