This is the sixth volume in the comprehensive and authoritative series, Germany and the Second World War. It deals with the extension of a European into a global war in the period from 1941 to 1943. It focuses on the politics, strategy, and operations of the belligerent powers as Germany lost the initiative to the Allies, and it represents, both in content and in composition, the climax and turning points of the war.

Series description This is the sixth in the magisterial ten-volume Germany and the Second World War series. The six volumes so far published in German take the story to 1943, and have achieved international acclaim as a major contribution to historical study. Under the auspices of the Militärgeschichtliches Forschungsamt [Research Institute for Military History], a team of renowned historians has combined a full synthesis of existing material with the latest research to produce what will be the definitive history of the Second World War from the German point of view. The comprehensive analysis, based on detailed scholarly research, is underpinned by a full apparatus of maps, diagrams, and tables. Intensively researched and documented, Germany and the Second World War is an undertaking of unparalleled scope and authority. It will prove indispensable to all historians of the twentieth century.
