Coprésences, entrecroisements (Chiasma) (French Edition) Kirsty Bell

Coprésences, entrecroisements propose une étude de différentes interactions entre la littérature et la peinture dans des romans de deux auteurs québécois importants, Marie-Claire Blais et Sergio Kokis. Les romans de Blais et Kokis font preuve d'une grande saturation du pictural et permettent ainsi une exploration de plusieurs types de rapports texte-image: que se passe-t-il lorsque l'image accompagne, complète et prolonge le texte littéraire? Comment aborder l'*ekphrasis*, l'illustration, l'illustration paratextuelle et l'auto-illustration? Quels effets de sens sont produits par ces coprésences et entrecroisements? Les modes d'inscription du visuel dans le narratif jettent une lumière nouvelle sur les romans de Blais et Kokis et élucident divers concepts fondamentaux que partagent texte et image, tels le portrait, l'autoportrait, la perception, le miroir, le masque, la contrefaçon, la création et la déformation. Les récits s'ouvrent ainsi aux sensibilités picturales.
