Targeted Killing: Self-Defense, Preemption, and the War on Terrorism by Thomas Hunter presents a reasoned, impeccably researched, and multi-faceted analysis of the tactic of targeted killing assessing its role, efficacy, and appropriateness in the current world political and military climate. Target killing is just one available option to national governments in their varied arsenals of state-sponsored strategies and tactics for fighting terrorism. Nevertheless, it is one of the most controversial and logistically dangerous options a government can exercise in preemptive strikes against real and current threats to national security.
